Subject: Final Draft 2020 Transition Papers -- Fourth Set for AA Review
Attachments: FINAL DRAFT Water Quality Standards (Litigation) 2020.docx; FINAL DRAFT Water System Security and Resiliency Transition 2020.docx

Please see two attached final draft 2020 transition papers for Dave's review & comment. We have followed the format from the agency transition team and worked diligently with the offices to ensure that all information provided is public, as these papers will be subject to FOIA. The intended audience is the first transition team that would arrive at the agency, so we assume little knowledge of EPA programs, and need for compelling issues and high-level, salient points.

All issue papers from OW are due to the agency transition team SharePoint site by October 16. After these two, we have 4 more to send Dave.

All papers are reviewed by ODs/DODs, Martha and Greg, then an assigned lead DAA/SA, and then all DAAs. For the cyber-security one, we also worked with AO/OHS and incorporated their comments. I left two comments on the RH margin of the cyber-security. We had asked OHS about public domain and you can see their responses. I thought Dave might appreciate that.

The attached have been reviewed by DAAs/SAs as follows:

Water Quality Standards: Owen (lead), Anna and Charlotte + other DAAs reviewed and commented. OST worked with OGC to thoroughly respond to comments.

Water System Security & Cybersecurity: Lee (lead), all DAAs were copied, commented, OHS reviewed and commented.

There are some issues with the format headers. We focused on content and if I could not easily fix the format issues, I left as is.

Please let me know if you need anything else.

Thanks.

Martha Shimkin
